

Whistleblowing Program

Whistleblowing Program is the tool which the Group manipulates to stimulate the Good Corporate Governance Principles. The Whistleblowing program is open to all employee or any relevant person to raise any clues or complaints when happens to know or in doubt whether there is any violation against the Group policies and/ or Procedures. The clues and complaints will be followed up and further investigated to verify the truths and must be taking any appropriated actions and report to the Management and delegated committee. Those will be kept as confidential and the employee who raise any clues or complaints and who corporate in the investigation, shall be protected from retaliation, bullying, intimidation, while who are not cooperating or hinder the inspection, will be imposed with the highest disciplinary actions. .
